1 Preliminaries

Revisions to CLAS GE area questions on forms

The chair presented revisions to the Add a Course and Change a Course forms to better reflect the information required to approve a course for a CLAS GEAR. Changes were approved with amendments. Find the new forms attached in Appendix.

Freshman writing

There is likely to be a town hall this fall concerning freshman writing and the apparently increasing number of students that pass out of the requirement.

Advertising courses

Higgins (CLAS) informed the committee that there is a listserv of advisors across the university that would be an ideal place to send information about new courses so that it reaches the students who may wish to take them. The list is:

ADVISING-L@uconn.edu

Contact Higgins (katrina.higgins@uconn.edu) or Ndiaye (mansour.ndiaye@uconn.edu) if you wish to post to the list or to find out how to join the list.

2 Approvals by the Chair

2014-100 Offer HRTS 3095 as Corporate Sustainability and Human Rights

Instructor: Prof. Caroline Kaeb

Approved Proposals

2014-091 Change Environmental Science Major

Approved Catalog Copy:

Environmental Sciences

The major in Environmental Sciences is based in the physical and biological sciences, but also includes course work in selected areas of the social sciences. The major leads to a Bachelor of Science degree, and may be adopted by students in either the College of Agriculture, Health and Natural Resources or the College of Liberal Arts and Sciences. This curriculum offers a comprehensive approach to the study of environmental problems, including not only a rigorous scientific background, but also detailed analyses of the social and economic implications of environmental issues. The complexity and interdisciplinary nature of environmental sciences is reflected in the core requirements of the major. These courses, assembled from several different academic departments representing two colleges, provide both breadth and depth, preparing students for careers that deal with environmental issues, and for graduate study in environmental sciences and related fields.

1. Required courses in Basic Science: ARE 1150; BIOL 1107, BIOL 1108 or 1110; CHEM 1124Q, 1125Q, 1126Q or 1127Q, 1128Q; MATH 1120Q, 1121Q, 1122Q, or 1131Q, 1132Q; PHYS 1201Q, 1202Q or 1401Q, 1402Q; STAT 1000Q, or 1100Q or 3025Q
